

## Case Study Details:

Have each student to complete common foundational task (action items), develop a career report or develop a classroom presentation to students in the class once they complete all the action items below. Here are some student steps:

### Step # 1 – Login and be sure your profile is up to date, Create SAE Project & Plan!

1. Choose  AET Experience Manager to develop the following SAE projects  
Name: Foundational SAE  
Level: Individual  
SAE Type: *Foundational*  
Initial Area: *Foundational*
  - a. Develop SAE plans using the  following key information and FIND 1 LEARNING AREAS from EACH of the 5 sections (total of 5):

*This could be a graded assignment*

### Step #2 – Time Invested in the Foundational Experience (SAE Journals)

- (Action-1)** Use AET’s profile to explore careers using O\*Net and develop 2 career interest areas
- 9/1/16 date, explore career areas, summarize your results into a 2-pg summary and report on educational needs for the career, at least 2 hours
  - Common skills are found in Foundational areas
- (Action-2)** Find a career mentor to interview then work on your AET resume career objective
- 9/15/16, Work with a mentor and build a career objective, 2 hrs.
  - Common skills are found in Foundational areas
- (action-3)** Using O\*Net, review salaries and regional location for jobs with cost of living
- 9/20/16 Review salary values in O\*Net and the cost of living and spend at least 1 hr.
  - Common skills are found in Foundational areas
- (action-4)** Review safety requirements of the job
- 9/22/16, in talking with mentors and searching on the web, develop a summary of safety certifications or training for a career choice for 1 hr. of time
  - Common skills are found in Foundational areas
- (action-5)** Using O\*Net, review labor demand and career trends
- 9/28/16, in using O\*Net and USDA career outlook, for 2 hrs. of time
  - Common skills are found in Foundational areas

### Step #3 – Develop Learning Items (Items that are a result of the assignment)

- Develop a classroom poster summary of career area and image for each of the 5 action items in the SAE
- Develop a career interest report that summarizes 3 career areas and related skills, education, safety, salaries and certification needed for the job
- Save final items into your project “portfolio”

**Step #5 - Annual Review and closing the SAE project** – Develop annual summary and skill details for each area of the project plan
